constitute a valuable supplement and confirmation of the OB of the Eighth Gds Army.

Comment in detail:

a. Eighth Gds Army:

[REDACTED] the army headquarters in the Sophien Krankenhaus, Weimar, Genpolk Boldin as CinC and Genmaior Pokhasnikov as Chief of Rear Services up to early November 1949. The CofS has so far been unknown. A Gen Belavski, identified in Weimar in connection with the Hq Eighth Gds Army in June 1948, is probably Gen Belayev, reported to be CofS. Col Tyereshkov, named as Chief of Veterinary Section, is unknown.

b. XXVIII Gds Mtz Rifle Corps:

[REDACTED] the Gera corps headquarters up to early November 1949.

c. The 20th Gds Mecz Div and the 57th Gds Mtz Rifle Div were confirmed by other sources up to late October 1949 and the 21st Gds Mecz Div up to late November 1949.

d. 39th Gds Mtz Rifle Div

The Hq 39th Gds Mtz Rifle Div [REDACTED] was previously confirmed in Rudolstadt [REDACTED] up to early December 1949.

25X1  
25X1

The reported officers of the division headquarters, including the CG Genmaior Vasilevski, are unknown. A Genmaior Stankevski or Yakshin has been assumed as CG of the division. The statement that Gds Col Dotsenko, formerly Dpty CO, returned to the Soviet Union was [REDACTED] who reported that furniture of a Col Dotsenko was dispatched from the Rudolstadt railroad station towards Frankfurt/Oder in September 1949 \*.

(1) The following component units of the 39th Gds Mtz Rifle Div were confirmed [REDACTED]

112th Gds Mtz Rifle Regt [REDACTED] in Flauen up to early November 1949

25X1  
25X1

117th Gds Mtz Rifle Regt [REDACTED] in Meiningen up to late October 1949

(2) The following component units of the 39th Gds Mtz Rifle Div were confirmed by the report up to late October 1949:

120th Gds Mtz Rifle Regt [REDACTED] in Saalfeld. 25X1

Gds Col Dimitrov, given as regimental commander, is unknown. Gds Col Dimonov was previously reported to be CO of the regiment. Dimitrov is presumed to be the correct name.

15th (Gds?) Tank Regt [REDACTED] in Saalfeld 25X1

13th Mtel Bn in Rudolstadt. 25X1

[REDACTED] the 406th Rifle Regt/124th Rifle Div during the war. 25X1

(3) The 87th Gds Arty Regt, confirmed as a component unit of the 39th Gds Mtz Rifle Div, was last identified in Rudolstadt in November 1947. [REDACTED] 25X1

(4) The assignment of an Ohrdruf 936th Gds Arty Regt (probably 936th Gds How Regt) to the 39th Gds Mtz Rifle Div is only known from records of Higher Headquarters. The report is considered credible. [REDACTED] 25X1

[REDACTED] 25X1

[REDACTED] 25X1

(6) [REDACTED] the 154th Gds Sig Bn, has been mentioned in reports on rail shipments in Rudolstadt since December 1948. The 154th Sig Bn was assigned to the 131st Mtz Rifle Div during the war and, according to records of Higher Headquarters (dated 1 November 1949), is assigned to the 39th Gds Mtz Rifle Div. The 154th Gds Sig Bn [REDACTED] is therefore confirmed as the Rudolstadt signal battalion of the 39th Gds Mtz Rifle Div up to late October 1949. 25X1

(7) The statement that the battalion is organized into a headquarters, a telephone and a radio company agrees with previous information. Gds Maj Chalenko, mentioned as CO of the battalion, is unknown.

(a) The following additional units of the 39th Gds Mtz Rifle Div have been unknown so far, but are presumably assigned to the division:

512th Med Bn in Saalfeld [REDACTED] also belongs to the division headquarters) 25X1

Field workshop battalion

Motor transport company

Gas-defense platoon.

(8) The reported ration strength of the 39th Gds Mtz Rifle Div (8,400 troops) equals about 75 percent of the presently assumed T/O strength (11,000) and corresponds with previous information on the actual strength of standard units.

(9) The data on the organization of the 112th Gds Mtz Rifle Regt are credible but incomplete inasmuch as the battalions are likely to include an AT-AA battery, a machine gun company and a mortar company, and the regiment at least one mortar company, an AA machine gun company and a mixed headquarters company. The reported strength of 1,280 troops also equals about 75 percent of the T/O strength assumed at about 1,800.

(10) The data on inductions and service terms (see Standard Manpower Questionnaire) agree with information of the Fall of 1949.
